

Smart City Solutions

inseego

HCMI or Skyus-X

Provide a wireless experience for riders, extending their mobile connectivity with our Skyus-X and HCMI systems. Whether you are looking to maximum rider efficiency on a morning commute or equip first responders, our systems will keep your city connected and on the go.

Skyus USB Modems

The Skyus and Skyus DS simplify integration efforts and add a reliable connection to your Kiosk and Point-of-Sale applications. Know that your transactions are secure, your applications are readily available, and your systems are operating smoothly over a reliable connection.

SURVEILLANCE

Surveillance System

Capture real-time footage at high-speeds with an Inseego surveillance system featuring the Skyus-E. Whether you are looking to monitor roof-tops or watch the parks at night, Inseego provides surveillance solutions to keep your city safe.

DIGITAL SIGNAGE

Skyus-E

Empower your digital signs and extend your brand with Inseego's Skyus-E. With the ability to monitor your signs and keep them connected, update your content remotely, or target content based on the time of day, the Skyus-E will deliver your message wherever a cellular signal will take you.
