

Connected Police Car Solution

inseego

Rugged Computer

A rugged computer provides officers with real-time access to crime data and reduces the time required to file logs and reports. It is military tested to withstand a variety of factors including drops, shocks, vibration, and temperature extremes.

Skyus Watcher

Configure GPS and cellular settings remotely with the Skyus Watcher connection watchdog. Skyus Watcher provides robust connection monitoring and failure recovery, ensuring maximum uptime for your deployment.

Skyus DS

Connect officers to dispatch, electronic records, and more with the Skyus DS. For a more durable low-cost alternative to mobile broadband cards, the Skyus DS provides a single connection with multiple SIM cards and GPS.
