Skyus & Skyus DS by Inseego

Wireless Connection for Your Business Assets

Small, yet powerful, the Skyus & Skyus DS keep your business powered 24/7

These powerful USB connected modems provide connectivity and failover support for anything from vending machines to ATMs and everything in between. Skyus and Skyus DS provide you with a secure way to transmit sensitive data to and from a remote site. And with Skyus Watcher, our watchdog utility, you have easy visibility into your signal strength and online connections. Watcher monitors your Skyus deployment and can distinguish a real security threat from a minor issue and knows when to alert you. Designed to operate unattended, Skyus Watcher gives you peace of mind that your deployed devices are secure and always connected.

Only the Skyus products can provide:

1 Seamless Deployment
Skyus and Skyus DS use standard USB connections, so getting up and running is as simple as plug and play.

2 External Antenna Ports
External antenna ports optimize reception and coverage providing a stronger signal.

3 Connection Watchdog
Watcher monitors your Skyus deployment and alerts you if there's an issue.

4 Rugged Design
Designed for continuous operation and higher temperature ranges than typical USB modems.

Skyus and Skyus DS

Skyus Watcher

Easy to Install USB Connection

Using standard USB connections for the physical interface, installing the Skyus devices is easy and stress-free. Although they perform like embedded modules, they are actually self-contained add-on units that require only a USB cable to get you up and running quickly and efficiently.

Dual SIM Card Slots and GPS
(Skyus DS)

In addition to the standard features of Skyus, the Skyus DS. And the GPS antenna connector provides out-of-the-box GPS support for easy trackability.

Monitor Activity with Skyus Watcher

With Skyus Watcher, you can monitor your device's health and connection status. Designed to run on Windows platforms, Skyus Watcher provides robust connection monitoring and failure recovery logic, ensuring reliable connectivity for Inseego customers.
