

MiFi® 5510L

3G/4G LTE™ Intelligent Mobile Hotspot

Simplify your life at work and at play with MiFi 5510L

Introducing the Verizon Jetpack™ 4G LTE Mobile Hotspot MiFi® 5510L, a MiFi Intelligent Mobile Hotspot from world class manufacturer Novatel Wireless. MiFi® 5510L is the first Jetpack to feature Verizon's new iconic design, showcasing an illuminating red translucent lens and signature look.

With MiFi 5510L, staying connected has never been easier. Connect up to 10 Wi-Fi enabled devices to fast 4G LTE Internet, check real time data usage directly on the device, power through your day with a battery that lasts up to 8 hours*, and see battery level and connected devices at a glance.

STAY CONNECTED FOR UP TO 8 HOURS—ANYTIME, ANYWHERE

MiFi 5510L provides a reliable Internet connection when and where you need it. The powerful battery delivers up to 8 hours of continuous use on a single charge. Customizable power-saving features including screen sleep settings help extend battery life.

KEEP AN EYE ON DATA USAGE—ON-SCREEN, REAL TIME DATA REPORTING

MiFi 5510L makes it easy to stay within your data plan and avoid costly overages. Data usage displays directly on the face of the device. See your data use and billing cycle in real time.

CONNECT WITH EASE—USER FRIENDLY TOUCH NAVIGATION

Sporting Verizon's new signature look, the bright, intuitive screen puts important information right at your fingertips. With MiFi 5510L's touch-navigation keys you can quickly and easily view data usage, signal strength, network and battery status, number of connected devices, SMS alerts, password and network name—directly on the device.

SHARE THE EXPERIENCE—CONNECT UP TO 10 DEVICES

Create your own personal Wi-Fi cloud and share high speed 4G LTE and 3G Internet connectivity with up to 10 devices—notebooks, tablets, e-readers, gaming consoles and more. MiFi 5510L provides a reliable, long-lasting and dedicated connection for serious Internet users.

CONNECT WITH CONFIDENCE—ADVANCED SECURITY TO KEEP YOUR DATA SAFE

The MiFi 5510L supports the latest, most advanced security protocols required by some of the strictest corporate VPNs, including IPv4 NAT and IPv6 Firewall, unique Wi-Fi password, MAC address filtering, Wi-Fi privacy separation and hacker prevention features.

* Battery usage depends upon number of devices connected and activity.
